### **Informed Consent for Chiropractic Care**

When a patient seeks chiropractic health care and we accept a patient for such care, it is essential for both of us to be working for the same objective. It is important that each patient understand both the objective(s) and the method(s) that will be used to attain this objective. This will prevent any confusion or disappointment. You have the right, as a patient, to be informed about the condition and the recommended care to be provided so that you make the decision whether or not to undergo chiropractic care after being advised of the known benefits, risks, and alternatives.

Chiropractic is a science, philosophy and art which concern itself with the relationship between the spinal structure and the health of the nervous system. As chiropractors we understand that health is a state of optimal physical, mental, and social well-being, not merely the absence of disease or infirmity.

One disturbance to the nervous system is called a vertebral subluxation. This occurs when one or more of the 24 vertebra in the spinal column become misaligned and/or do not move properly. This causes an unhealthy change to nerve function and interference to the nervous system. This may result in pain and dysfunction or may be entirely asymptomatic.

Subluxations are corrected and/or reduced by a chiropractic adjustment. An adjustment is the specific application of force to correct and/or reduce vertebral subluxation. Our chiropractic method of correction is by specific adjustments to the spine. Adjustments are done by hand where the doctor will put pressure on the specific segment(s) of the spine to adjust the vertebrae into a better position.

If at the beginning or during the course of care we encounter a non-chiropractic or unusual findings, we will advise you of those findings and recommend some further testing or refer you out to another health care provider.

Chiropractic care has been proven to be very safe and effective. It is not unusual however, to be sore after your first few corrective adjustments. Although rare it is possible to suffer from other side effects; i.e. muscle spasms, stiffness, rib fracture, headache, dizziness and stroke.

All questions regarding the doctor's objective to my care in this office has been answered to my complete satisfaction. The benefits, risks and alternatives of chiropractic care have been explained to me to my satisfaction. I have read and fully understand the above statements and therefore accept chiropractic care on this basis.

**Standard Waiver of Liability:**

I understand that I am financially responsible for any charges incurred at this office, for those patients using insurance, this would include co-pays, deductibles, and charges denied or not covered by my insurance company.

I realize my care may be subject to pre-authorization by my insurance company, and I accept any responsibility for charges which may not be approved. My insurance company will review any/all documentation submitted by Cordero Family Chiropractic for review for medical necessity, however, final determination is based upon my insurance company's medical guidelines. Insurance policy limitations are per individual insurance policy plans, as are co-payments, co-insurance, deductibles, referrals, etc.

I understand this office agrees to notify me as soon as possible whether my care is approved or denied by my insurance company. I further understand my initial visit may be denied and this may be beyond the office ability to notify me prior to rendering acute care, while waiting for insurance coverage approval. These charges will be my responsibility if denied by my insurance company.

NOTE: our office does not bill secondary insurance carriers.

I understand this office will require payment from me for any services not covered by my health insurance plan. Any payment due beyond 30 days is subject to late fees, interest at 1.5% per month and collection agency fees. I agree to pay all collection costs associated with collecting said debt, including, but not limited to attorney fees of 25% (twenty-five percent), together with the cost and disbursement of the action.

**Assignment of Benefits:**

I hereby authorize my insurance benefits to be paid directly to Dr. Francisco Colon and/or Dr. Sebastian Colon.

I have read this document and understand my obligations for payments for care in the absence of insurance coverage.
